# Series of FOBP closures

**FOBP closure is available in two options of the sealing and two options of the capacity. FOBP closure is available in two options:**

- **thermic sealing** of cable ports
- **thermo-mechanic sealing** of cable ports

Thermic option is equipped with 4 round ports for single cables (cut) of max. diameter 20mm, 8 oval ports for single cables of max. diameter 10mm and one round port designed for uncut cables of 25mm diameter.

Thermo-mechanic option is equipped with 2 round ports with different version of multiple inserts for single cables (cut), 8 oval ports for single cables of max. diameter 10mm and one oval port designed for uncut cables of 25mm diameter.

Maximum closure capacity is 144 fibers or 288 fiber depending on the option chosen. Therefore, there is a possibility to equip the closure with extra 9 or 18-port adapter field. The closure can be widely used in all kinds of architecture of FTTx telecommunication system.

## FOBP-144

**Dimensions [mm]:** 438x293x162 (height/width/depth)  
**Capacity:** max. 144 splices

## FOBP-288

**Dimensions [mm]:** 568x293x162 (height/width/depth)  
**Capacity max:** max. 288 splices

## THERMO-MECHANIC

### LINE PORTS

Cable diameter: max. 20 mm (4x) + oval (1x)

### CUSTOMER PORTS (8X)

Cable diameter: 3-10 mm

### LINE PORTS

Cable diameter: max. 20 mm (4x) + oval (1x)

### CUSTOMER PORTS (2X4)

Cable diameter/dimensions: 3-6, 6-8, 8-10, 8.3x4.6 mm

*Membrane insert for various cable diameters*

## CABLE GROMMETS IN A THERMO-MECHANIC BASE

Membrane insert for aerial applications

For  $\Phi$  3-6 mm cables

For  $\Phi$  6-8 mm cables

For  $\Phi$  8-10 mm cables

For 8.3 x 4.6 mm flat cables

FIBRAIN 

PATENT PENDING

# BU-XN

**PATENT PENDING**

- ✓ **breakout unit for internal-building systems with Eac cables**
- ✓ **stackable construction makes the product tailor made**
- ✓ **dimensions (w)x(h)x(d): 72x160x27**
- ✓ **can be used as:**
  - cable protection cover for protecting the window cut
  - breakout unit for distribute the fiber from vertical EAC cable to a customer premise
  - Wall mounted cabinet for spliced connection
  - Wall mounted cabinet with adapter panel

## BU-XN - examples of application

# Rapid Box with VFTO-E1

- ✓ VFTO-E1 customer outlet with pre-connectorized cable coiled on a cardboard cable drum
- ✓ compact and innovative design
- ✓ lower costs and installation time

- ✓ VFTO-E1 customer outlet is designed for FTTH networks as a termination point for max. 4F
- ✓ modern and compact design
- ✓ shuttered adapters for eyes protecting

The Rapid Box system significantly speeds up the installation of the cable due to the elimination of cable entanglement possibilities.

Capacity:

# New system of fiber optic cables packaging

**Better installation of the drop cable family and AERO-DR03 cable, easy transport and handling, lower transport cost - it's only few features of the new packaging system.**

- ✓ handles for easy transport and handling
- ✓ significantly speeds up the installation of the cable due to the elimination of cable entanglement possibilities
- ✓ no need to use additional equipment to unwind the cable
- ✓ cardboard ecological packaging that facilitates transport and storage of cables
- ✓ prepared for VC-D20, VC-D30, VC-D40 and AERO-DR03 cable

# Pre-connectorized solution for HARSH application

## Armoured series consists of products:

- ✓ standard patchcord reinforced with spiral steel
- ✓ cross-connect drop patchcord with armoured fanouts
- ✓ pre-connectorized multi-fiber cables with armoured fanouts

## Features and benefits:

- ✓ Crush resistance up to 2000 N/100mm<sup>2</sup>
- ✓ Protected from rodent and minor crush
- ✓ Flexibility

## Reinforced patchcords & pigtails

Our patchcords and pigtails now available in reinforced version!

**Just as flexible,  
but even more durable!**

high flexibility

spiral construction

2000N crush resistance

kevlar-reinforced inner tube

3 mm outer diameter
